

KRAMER HOMEOPATHIC

An Invitation to Homeopathy:

Founded upon the principle that *"like cures like"* by Dr. Samuel Hahnemann in the early 19th century, homeopathy works to promote optimal health for the entire individual on all levels, including physically, mentally and emotionally. Homeopathy is essentially an energy medicine. Based upon the premise that all disease is the result of some derangement or weakness of our vital force or life force, which by its very existence is energy itself and not substance. Therefore, the only way to bring about a true and lasting cure for our maladies is to introduce a remedy into our organism, which exists on the identical plane and contains those same properties as that vital force which had become compromised.

Embracing those very principals of nature and natural healing found in other ancient therapeutics, homeopathy seeks to re-establish both balance and harmony to an individual's health through the administration of specifically designed remedies. The source of these remedies is derived from all naturally occurring substances. Through scientifically formulated methods, the preparation of these remedies are designed to ensure that they will resonate and stimulate the core of the weakened life force, thus enabling it to become strengthened once again and allow the healing process to occur organically from within.

The vital force innately *"knows"* the precise nature of its own weakness and the accompanying symptoms which manifest as a result from that derangement. Once strengthened with homeopathic remedies, only the vital force itself can initiate and bring out a speedy return to complete health on all levels.

For over two centuries, homeopathic medical treatment has brought about cures for millions of people worldwide in a rapid, gentle and permanent way. Until the late 1920's, it accounted for approximately 25% of all medicine practiced in the United States. Its renowned use has been long acknowledged throughout the world as a major medical therapeutic. The royal family uses homeopathic medicine for all their members, as well as many nationally recognized celebrities.

Mahatma Ghandi stated *"homeopathy cures a larger percentage of cases than any method of treatment"*. Additionally, Dr. Charles Frederick Menninger, founder of the Menninger Clinic, declared *"homeopathy is wholly capable of satisfying the therapeutic demands of this age better than any other system or school of medicine"*.

The resurgence of homeopathy in the United States during the last several decades is a testimonial to both the historical efficacy of this renowned medical therapeutic, as well as the desire of the American people to obtain the best available treatment for themselves as whole beings and on all levels. As a full time practitioners of classical homeopathy, David Kramer and Julie Deuvall embrace and adhere to the same time-honored practices and principles of all true holistic therapeutics practiced globally.
